

ELECTRIC FENCE

Reliable Perimeter Security Solution

APPLICATIONS

AGRICULTURE:

- Field protection
- Protection of gardens
- Cattle protection in big farms

SECURITY:

- Home security
- Factory perimeter protection
- Warehouse protection
- Open perimeter protection

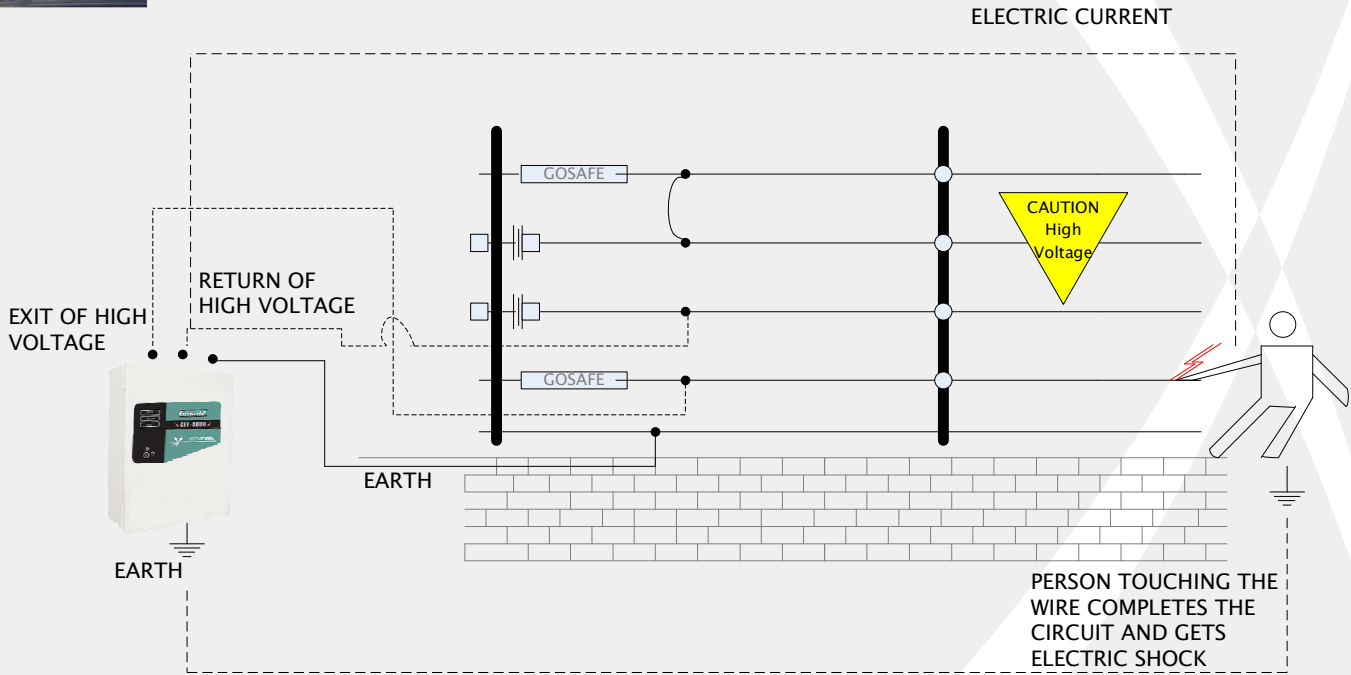

OTHERS:

- Protection for pets
- Airports
- Military/Government buildings

No threat to the life of the intruder

WORKING PRINCIPLE

GEF 8000

- Range: 400m
- Consumption: 4.5W
- Power: 0.1J

GEF 10000

- Range: 2,000m
- Consumption: 7.7W
- Power: 3.0J

Voltage Drop Alarm if someone tries to cut the wires

GEF 500:

- Connection to 110/220V AC and 12V DC Battery
- Regulation of high voltage exit (6,000V - 13,000V)
- Electrical power consumption of less than 6.6W
- Protection of battery by Fuse of 0.5A
- Innovative mechanism to detect any type of opening in the fence
- Energize up to 2000 meters of wire
- Pulsating Exit of 12V (100mA) to connect to LEDs in posts
- Power of 3.0Joule
- Designed to operate on a 24 x 7 basis
- Cabinet with Dry Battery of 7A
- Operating Temperature: -10 to 50° C

Applications for country-wide distribution are welcome.
